

Dear Supporters of the Net Zero Carbon Events initiative,

We hope that you had a chance to look into the NZCE Roadmap which was developed last year and was officially released at our session during the COP 27 in Sharm El Sheikh. If you missed to download it, [here](#) is the link to the document again.

In Sharm El Sheikh we've also officially launched the third phase of the project with 8 parallel workstreams on 5 designated action areas (Food and Food Waste, Logistics, Smart Production and Waste Management, Travel & Accommodation, Venue Energy) and 3 transversal ones (Offsetting, Measurement, Reporting).

As already announced, we would like to invite you to a webinar on 15 February 2023 where all workstreams will introduce themselves and give a short overview of what they'd like to achieve by end of this year.

Since the Net Zero Carbon Initiative is truly a global project, the webinar (approx. 90 min) will be organised twice with the same content. You are welcome to choose either of following time slots:

1. **9:00am CET** (12:00pm Abu Dhabi, 3:00pm Bangkok, 4:00pm Singapore, 7:00pm Sydney)

or

2. **3:00pm CET** (2:00pm London, 11:00am Sao Paolo, 9:00am New York, 8:00am Mexico City)

Please click [here](#) to fill out the registration form and please note that you will receive a link to join the webinar one day in advance.

We look forward to seeing you on 15 February 2023 and are remaining available for any questions.

With kind regards,

Alexander Alles (JMIC) and Eric Ricaurte (Greenview)

On behalf of the Net Zero Carbon Events initiative
